Dear General Practitioner

I do hope you are all enjoying the summer months and are able to have some well-deserved relaxation from your consistently demanding work schedules.

In the Summer, the Litfield House team focuses on room renovations and admin, whilst also welcoming new members to our growing team of expert consultants. Visit our website to see our list of Consultants & Specialities and Medico Legal experts for referrals. The links are located at the bottom/right of our newsletter.

Victoria Gee, our marketing representative, is currently occupied with sourcing speakers for our upcoming lecture series. If any General Practitioners or Consultants with a specific expertise are interested in speaking, please reach out to her. Additionally, she is in the process of updating our mailing list of GPs. If you have recently changed your practice, email, or telephone number, kindly contact her to ensure that your information is up to date.

Trisha Tanner

Practice Manager

PRACTICE OF THE MONTH

Beard Medical Practice

Beard Medical Practice is a private general practice, providing a full range of general practice services including blood tests, vaccinations, specialist medicals and ear wax removal. We pride ourselves in providing highly personalised and holistic care, always tailored to the individual's needs, concerns and required timescales. We provide a cryotherapy service to remove most benign skin lesions, including skin tags, solar lentigo and cherry angiomas. We offer a full range of private laboratory testing and sexual health screening. We conduct an extensive range of medicals, including well person health checks, taxi medicals, seafarers medicals and visa medicals.

Dr Henry Beard has particular expertise in cardiology, respiratory medicine, obstetrics, gynaecology, paediatrics and occupational health. He has been awarded many post graduate diplomas. His dual roles as a private GP and occupational physician complement one another and he provides a wide range of specialist medicals.

Dr Rachael Cave aims to always provide holistic, non-judgmental and empathetic care. She has an interest in lifestyle medicine and has completed a diploma in nutrition. She is passionate about offering both medical and lifestyle advice, which is tailored to the patient's individual needs.

We have close links with local specialists and would love to collaborate with all our colleagues at Litfield House. Please do drop in to Cabot room or email us if we can help you or if you would like to arrange a referral agreement.
