LITFIELD HOUSE
Medical Centre

Dear General Practitioner

I hope you all had an enjoyable summer.

We invite you to explore our forthcoming "GP Educational Lectures", which are detailed in our "Upcoming Events" section of this newsletter. Additionally, you can view and register for these lectures on our website via the following link:

Trisha Tanner

Practice Manager

PRACTICE OF THE MONTH

Contact Health is a private healthcare company, established in 2014 by CEO Colin Nicholson. We support the NHS and the independent healthcare sector, as well as self-funding patients wishing to arrange their own healthcare tests. We provide cardiac diagnostic testing including consultant care, and diagnostic and interventional musculoskeletal (MSK) ultrasound scans, including Ultrasound Guided Steroid Injections.

We offer rapid clinical access, expert high-quality services and reports from fully qualified and accredited clinicians using the latest diagnostic technologies and techniques.

Colin Nicholson specialises in cardiac diagnostics; services available at Litfield House include ECG, Echocardiography, Ambulatory ECG and Ambulatory BP monitoring. In partnership with St Joseph's Hospital in Newport, we offer advanced diagnostics imaging, including MRI and CT scanning.

Dr Amardeep Dastidar, Consultant Cardiologist at the North Bristol NHS Trust and Bristol Heart Institute, provides consultant cardiology review services for Contact Health. He has specialist expertise in all aspects of general cardiology, coronary intervention, intravascular imaging, cardiac MRI, CT coronary angiogram (including CaRi-Heart analysis) heart failure, preventive cardiology, and hypertension.

Kate Wade specialises in MSK ultrasound and has been performing diagnostic and interventional MSK ultrasound for more than fifteen years, including MSK steroid injections. She is also Associate Lecturer in Musculoskeletal Ultrasound at the University of the West of England.

We are friendly and accessible, so do pop by (we're on the second floor), or drop us an email. We look forward to meeting you!
